Dear Parent/Caregiver

Religious Instruction, as previously advised, has been occurring in classes this term. The program is delivered by volunteers from the various Christian churches in our community. Student participation involves up to 30 minutes of instruction per week, which includes stories, activities and songs based on a non-denominational curriculum approved by the local ministers fraternal.

Previously, we have had 90% participation by students at Narangba State School. Where parents have indicated on the enrolment form that they belong to a Christian faith group, permission is not required for participation. New legislation requires that students who have not indicated a faith group must have parent consent before they may participate.

RE has a minimal cost of \$3 per year to cover the materials used and the photocopying required. Please complete the tear-off form below and return it to their student's teacher together with the payment.

Kind regards

RE Coordinator
